Blood Ties: The Complete Series

A police detective-turned-female private detective (Christina Cox) takes on the creatures of the night with the help of her former partner (Dylan Neal), a goth-girl assistant (Gina Holden) and a centuries-old sexy vampire (Kyle Schmid) who teams up with her to take on zombies, demons and other mythic denizens of the nocturnal world. Think of this Canadian series (based on the novels by Tanya Huff) as "Beauty and the Beast" by way of "Forever Knight," more supernatural fantasy than urban horror with a sexy edge that earned it a cult following in the United States on the Lifetime network. The series lasted two seasons and 22 episodes, all collected on four discs on its Blu-ray debut. Also includes a generic featurette.
